QUALITY, ENVIRONMENT, AND OCCUPATIONAL SAFETY AND HEALTH

Electro Conductores Peruanos SAC – ELCOPE is a company dedicated to the “design and development of power cables; the manufacture and sale of medium- and low-voltage power cables, control cables, communications cables, halogen-free cables, and bare conductors.”

Our Integrated Policy on Quality, Environment, and Occupational Health and Safety is based on the following commitments:

- Comply with current legal and regulatory requirements applicable to the activities we carry out and those entered into with third parties.
- Ensure that our customers' requirements are met to their satisfaction..
- Contribute to environmental protection by minimizing negative environmental impacts and preventing environmental pollution through the proper disposal of waste generated by our activities.
- Ensure the development of our employees' skills through ongoing training.
- Eliminate hazards and reduce risks to ensure safe and healthy working conditions for our employees and stakeholders by preventing injuries, occupational illnesses, incidents, and workplace accidents.
- Promote consultation with and participation by employees and their representatives at all levels of the organization.
- Implement continuous improvement in our Integrated Management System.
- Communicate and maintain the Integrated Management System policy at all levels of the organization and make it available to interested parties upon request.
